

Ten Talks

10 speakers spoke for 10 minutes on 10 different subjects under the theme of communicating the Christian Faith in the 21st century and 60 delegates discussed 3 talks at a time for 10 minutes with 10 minutes Q & A.

Here is what people said

Congratulations on a real Masterclass today. I came away with a great deal to think about on communicating my faith. Each speaker clearly communicated each aspect, each talk could have stood alone but together they gave a clear overall strategy. Hilary

Just wanted to say thank you to you and your team for organising and putting on today, personally I thought it was a really great day and certainly from the conversations I had with other people, that seemed to be the all-round general consensus. I felt the day was really useful and inspiring, I felt I got a lot from it. Thomas

Just a big thank you for Saturday. It was a really well constructed day and great the way that you were able to keep to the timings which makes so much difference. The format was helpful with different emphases and angles and each person spoke with such conviction and experience and the whole thing gelled together so well. Good venue, eating arrangements and helpers making it all very smooth.

Thank you again Corinne
